

IN EVERYTHING THAT FLIES

THE LEATHER INSTITUTE
FLUENT IN LEATHER

Extend the life of Ultraleather™

Do you need to remove an ink stain on an armrest? Do you have damage to a seat's fabric due to overuse?

Many products are replaced due to aesthetic issues that can be restored.

Tapis has partnered with **The Leather Institute** to provide our customers with the resources to clean and repair Ultraleather. *The Leather Institute* is the expert at repairing leather and Ultraleather, and their goal is to help maintain the beauty of the material, and extend its lifespan.

Through this partnership, Tapis now offers an effective biodegradable cleaner that works well for general maintenance of Ultraleather.

In addition, *The Leather Institute* offers a complete line of restoration services through their affiliates in the U.S.A., U.K., and throughout Europe and Asia. Services include cleaning products, conditioning, touch-ups, color restoration, repairs and training in maintenance procedures.
