

NEW Embossed Ultrasuede® offers inspired alternatives for designers

Ultrasuede Galaxy, Bark and Lunar make up our unique [Ultrasuede Embossed Collection](#). These embossed

patterns maintain the same pliable, non-woven, micro-fiber composition as our popular Ultrasuede. Galaxy, Bark and Lunar offer modern and refreshing options for aircraft interiors...while still maintaining the high standards you've come to expect from Ultrasuede.

Email us at info@tapiscorp.com for more information.

New Product Designed for Ultra-High Wear Applications

[Ultraleather™ Promessa](#) combines extreme durability with a luxurious, innovative, two-toned texture...and it stands up to the most demanding environments. This combination makes Promessa a versatile option for a wide variety of high wear uses, including seating applications that a Regional Jet program, Jump Seat or Economy Class seat may demand.

Promessa not only looks great and feels good, but this antimicrobial fabric is also environmentally friendly! It does not contain plasticizers, heavy metals or stabilizers...and it's 100% free of VOC's, POP's and formaldehyde.

New Color Cards Available

New color cards are available for our **Ultrasuede Embossed** and **Ultraleather Elite** collections. Samples are also available for these products, as well as Ultraleather **Promessa**. Request yours today! Email info@tapiscorp.com or call us at 914.273.2737 / 800.275.0275.

Update on Tapis NBAA Party

In light of the current economic circumstances, Tapis has decided to forego the Annual NBAA Cocktail party this year.

This party has always been an opportunity for us to thank our customers and celebrate our relationships with all of you. However, these are difficult times for our industry, and we feel this is the most economical decision.

Please be assured that our commitment to customer service and the finest quality products will remain the cornerstone of our company. We hope to see everyone when we resume the annual celebration in Atlanta in 2010!

DID YOU KNOW?

As new technologies drive a worldwide green revolution that's touching virtually every aspect of our lives, Tapis is proud to embark on our own environmental journey.

TapiSuede is now made of 100% high-purity recycled polyester which reduces its carbon footprint. The high-tech manufacturing techniques and the use of special water-dispersed polyurethane eliminates the need for harmful organic solvents used to manufacture other man-made suede's.

NEW WAREHOUSE ADDRESS

We have made the move to a new, upgraded warehouse facility, in order to improve our flame-treating capabilities, color matching and quality control. Our new warehouse is located at:

1121 Roundtable Drive
Dallas, TX 75247

Product Update

Our Westchester product line is being phased out. There is limited stock available at this time. However, please check out our new [Ultrasuede Embossed Collection](#) as a unique alternative!
