

IN EVERYTHING THAT FLIES

FUSION ...a sleek, modern surface that will make you look twice

Fusion by Ultraleather feels every bit as revolutionary as it looks. A smooth, microfiber-like grain, infused with silver ion antimicrobial technology, allows this surface to take on a new look in any application. Available in both shimmer and matte colors.

Visit www.tapiscorp.com or email us at info@tapiscorp.com for more information.

Versatility for Commercial Aviation

GPWB is our popular 100% wool face Grospoint for commercial aviation. The versatility of this product is amazing. It can be used on various panels with different adhesives, and it has no trouble meeting FAA flammability requirements.

Email us today for more information at info@tapiscorp.com.

Electronic Funds Transfer Now Available

In order to more efficiently process payments, Tapis offers you the option of making your payments via ACH for Domestic (US\$) payments. The Automated Clearing House (ACH) is an electronic funds exchange network for US dollar payments within the United States. An ACH payment provides a secure, efficient, inexpensive means to process payments electronically utilizing the ACH banking system.

Please contact Jill at info@tapiscorp.com if you would like more information.

HOLIDAY HOURS

As we near the end of the year and enter our holiday season, we would like to take this opportunity to thank you for a great year. It has been our pleasure to work with you.

Our office and warehouse will close on Wednesday, December 23, 2009 at 5:00 PM and will reopen on Monday, January 4, 2010 at 8:30 AM.

We wish you a joyous holiday season and a wonderful New year. We look forward to a great 2010!

DID YOU KNOW?

All of our Ultraleather products are made of **Polyurethane Polycarbonate**, which is far superior to vinyl and other less reliable polyurethane blends. Finished fabrics of PVC (polyvinyl chloride) are nearly environmentally indestructible and can release toxic compounds when produced or burned. Our PU products don't contain the volatile plasticizers and stabilizers found in vinyl.

Product Update

11 colors from our Ultrasuede line are being phased out: These colors are no longer available in our open line, however, they are still available with minimum order quantities. Please check our TapiSuede line as an alternative.
