

MATTE VINCENZA...the latest Ultraleather grain

Matte Vincenza provides a **simple, smooth and sophisticated grain with a color palate chosen with lightness in mind.** These hues complement many of the other products housed within the Ultraleather™ family of products.

DID YOU KNOW?

Animal skins are turned into leather using a variety of substances including mineral salts, formaldehyde, coal-tar derivatives and various oils and dyes - some of which are cyanide-based.

Our **Ultraleather** family of products combine aesthetics and performance that are superior to genuine leather.

RELIABLE & TRUSTED

No, we're not talking about Tapis (although we could be!). We're referring to **Tretford carpet**, the original ribbed texture for floors and walls.

This versatile carpet is available in dozens of colors. Contact us for more information!
