

# Geneve—

Elevating the Passenger Experience

Geneve is woven, dyed and finished with traditional textile craftsmanship. This natural- fiber pile fabric is woven with loop patterns rather than a more common cut pile. The 100% wool face loop not only improves abrasion, but also creates a clean architectural look, which enhances the interiors of many aircraft. This fabric also has a superior ability to withstand surface wear.

## Distinctive Features

- 100% wool face
